

BOT BUZZ

2023 - MARCH

1

Overall progress, achievement and attendance:

The BoT has oversight of overall student progress, achievement and attendance. Staff reported the 2022 results, with accelerated progress in multiple areas. These results help to set the next strategic direction for the school which the Board also has oversight of.

2

Carparking at School:

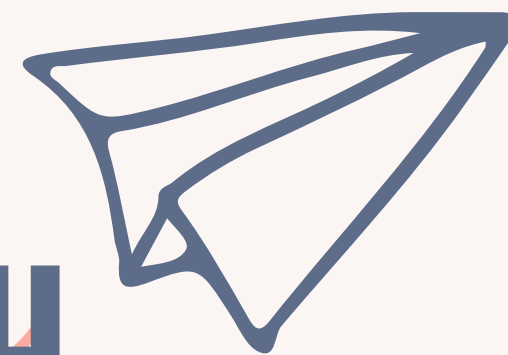

We noted some issues with car parking at school. We'd like to remind everyone that the parking directly off the road (in front of the school gate in the area closest to the office) is for staff only please. It is also very important that the area directly in front of the school gate is free of cars at all times, as it must be kept clear for emergency vehicle access.

We acknowledge parking is at a premium during drop off and pick up times. We would love to hear any ideas from the community about how to improve parking for the school. Unfortunately, we have limited space to accommodate parking without taking out valuable playground space for our students.

BOT BUZZ

2023 - MARCH

3

School website:

We are looking at updating our website and would love to hear any feedback you have on what information is useful to have on the website. We'd also like to check if there is anyone with website building experience that might like to help our school out to update our website. Please get in touch!

4

Other bits and pieces:

Other things on our agenda on 22 March that we discussed were:

- School finances and budgets
- Health and safety
- Policies up for review
- School bus matters
- Professional learning and development
- School property and maintenance
- School events and happenings

Next BOT Meeting: 10th May, 2023, 5pm

We look forward to another great year of learning and growth at Kaipaki School this year.
